

i-Got-Control

as easy as **Connect, Select, Control!**SM

Model IRB1

With its built-in worldwide IR database and learning capability, the IRB1 and its associated App turns your iPhone®, iPod® touch or iPad® into a powerful universal remote control with the easiest programming interface on the market!

Containing over 40,000 IR codes from 1,000's of Audio/Video and Lighting devices to choose from, i-Got-Control sets up in seconds and allows you to "take control" wherever you go.

Three Easy Steps: Connect, Select, Control
Need to add a device? No Problem. I-Got-Control can 'learn' from any IR remote so it never gets outdated! No need for a Wi-Fi network; just **CONNECT, SELECT and CONTROL!**
